About Me

A motivated learner with basic knowledge of web and mobile application development. Familiar with HTML, CSS, JavaScript, SQL, React JS, React Native, and Node.js. Enthusiastic about exploring both front-end and back-end development, with an interest in building simple and user-friendly applications.

Language

- English
- Nepali
- Hindi

Education

Indrapur Namuna Sec. Eng. School
Secondary Level   Up to 2018.
Complete SEE with 3.06 GPA

Sukuna Multiple Campus
Higher Secondary Level   2018 - 2020
Complete grade 12 with 3.06 GPA

Sushma Godawari College
Bachelor Level   2020 - Present
Last Semester ongoing at IOST, Tribhuvan University

Technical Skills

- **Programming Languages & Technologies:** HTML, CSS, JavaScript, SQL
- **Frontend:** React JS, React Native
- **Backend:** Node.js
- **Database:** SQL
- **Other:** Web development, Mobile application development

Project

Ingredient Scanning App

- Collaborated with three friends to develop a mobile application that scans and analyzes food ingredients using a machine learning model.
- Implemented features to assess ingredient impact and provide user-friendly insights, where the machine learning model is trained on ingredient data to provide a rating for each ingredient.
- Utilized React Native for frontend development and SQL for backend processing.
- Integrated a database for storing scanned product history and retrieval functionality.
